and more

MEDICAL

MORE TIME SPENT ON YOU

Our mission is to provide comprehensive medical, mental health and personal care services into the home in collaboration with the primary care provider and other community agencies to improve health outcomes and quality of life for people in the communities we serve.

We offer gap care for medical services when the patient is not connected to primary medical care or when care is not otherwise available. We seek to connect patients to and collaborate with primary care providers.

We also offer Chronic Care Management for comprehensive, longitudinal care of patients with multiple medical and/or mental health conditions.
